Recommendation

NAFTO S.A. confirms, that Jobtech Sp. z o.o. provided services as a subcontractor on the project by Expansion of the NJB in Plock.

Jobtech Sp. z o.o carried out the entrusted tasks in the field of scope two hydrostatic tests:

Big Boiler Block, and Superheater.

Despite the high requirements set by the Client (as temp. >20°C) and short preparation/mobilization time, both tests were performed perfectly and ended with a positive result.

During the work, Jobtech was characterized by full professionalism, necessary experience, knowledge and required equipment needed to carry out the imposed tasks.

All work was carried out on time, preceded by a careful approach to preparations, compliance with procedures and health and safety regulations prevailing at the facility.

We can undoubtedly recommend Jobtech Sp. z o.o. as a reliable subcontractor and a proven business partner.
