## Recommendation

The company Berksan would like to confidently recommend Jobtech Sp. z o.o. as a reliable and competent business partner.

Jobtech sp. z o.o. fully support and completed tasks mentioned below:

- **Pressure testing** – to verify the tightness and durability of the pipelines, successfully conducted in accordance with technical requirements.
- **Pipeline cleaning** – using compressed air and mechanical methods, effectively removing internal contaminants.
- **Leak test with air using bubble method** – carried out as per project specifications to provide additional assurance of system integrity.
- **Video inspection of pipelines** – enabling a comprehensive assessment of the internal condition of the pipelines upon completion of work.
- **Tensioning, Pipeline manual & hydraulic torquing** – ensuring the safe completion of the pipeline assembly.

We can fully recommend Jobtech Sp. z o.o. as a reliable service provider. The equipment and technicians assigned to the project have shown great professionalism and all work has been done with attention to detail and of a very good quality.
